SelectHealth Celebrates US Supreme Court Ruling on LGBTQ Rights

SelectHealth is thrilled with the Supreme Court's landmark civil rights ruling today. After 64 years, the nation's highest court has ruled that Title VII of the 1964 Civil Rights Act prevents employers from discriminating against gay or transgender workers.

As a health plan that has always supported the LGBTQ community and that has been a leader in ensuring LGBTQ individuals' access to quality health care in a safe, respectful setting, SelectHealth celebrates the court's affirmation of this important legal protection.
