

Health Plans Provider Portal: How to Access the Part D Stars Medication Adherence Dashboard

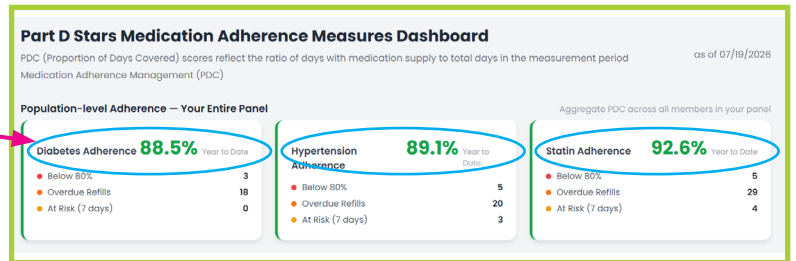

The Gaps in Care Part D Stars **Medication Adherence Dashboard** provides summary and detailed views of member adherence to diabetes, hypertension, and statin medications included in Part D Stars measures.

- 1 Log in to the portal. From the left sidebar navigation, click **Gaps In Care**, then select **Medication Adherence** from the dropdown menu.

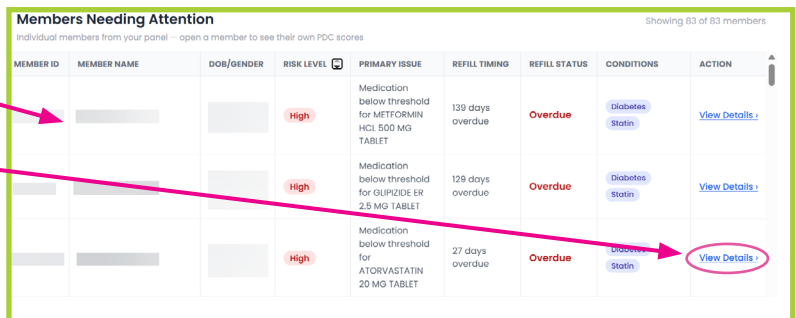

- 2 This opens the **Medication Adherence Dashboard**.

The upper section of the dashboard displays panel-level adherence scores for diabetes, hypertension, and statin medications.

- 3 The lower section of the dashboard displays a list of enrolled members needing attention, sorted by risk level.

For any member on the list, click **View Details** on the right to open the Member Detail screen.

MEMBER ID	MEMBER NAME	DOB/GENDER	RISK LEVEL	PRIMARY ISSUE	REFILL TIMING	REFILL STATUS	CONDITIONS	ACTION
			High	Medication below threshold for METFORMIN HCL 500 MG TABLET	139 days overdue	Overdue	Diabetes, Statin	View Details
			High	Medication below threshold for OLUPZIDE ER 2.5 MG TABLET	129 days overdue	Overdue	Diabetes, Statin	View Details
			High	Medication below threshold for ATORVASTATIN 20 MG TABLET	27 days overdue	Overdue	Diabetes, Statin	View Details

- 4 The **Member Detail** screen displays: member demographics, primary provider, adherence summary and overview, prescription details, suggested actions, last pharmacy used with phone contact, and risk indicators.
